To say that the inaugural EX Impact Summit was a smashing success would be a massive understatement of how critical employee experience has become to organizations of all sizes and industries. What we initially envisioned as a small meet-up of culture advocates quickly ballooned to a gathering of 100+ employee champions.

This fall we'll be bringing the same caliber of EX content to the West Coast. Join us in San Diego for 3 dedicated days of dialogue around the strategies for increasing engagement and empowering employees to feel more connected to their work. Additional coverage will be dedicated to journey mapping and the development of persona profiles to better understand and engage different personalities. Our top-rated speaker from the spring, Christopher Westcott of the Federal Reserve Bank of the San Francisco, will be returning with an expanded Masterclass on conscientious leadership, with a focus on enhancing leaders' awareness of how their motivations and behaviors inspire and engage others. New case studies from Concur and GoDaddy rounds out our cast of early confirmed speakers!
