Organizer : THEO SCHWABACHER

Venue : St. Francis Yacht Club

Location : 99, Yacht Rd
San Francisco, CA, USA, ZIP: 94123

W.I.T= Women's Intelligence Trust, is a forum for empowering women through thought leadership. The day is spent with women who are experts at the forefront of finance, health care, innovation and technology. Meetings are limited to small groups that allows optimum learning in an environment of intimacy, connectedness and creativity.

Women impact the environment in many positive ways and we like to look at current concerns and topics that can make your life more healthy. Some of the past topics have included: raising children in a 24/7 environment, futurism and what is coming in our wired world, nutritional energy and optimization, how to keep your heart, hormones and brain healthy. This forum is unusual because of the intimate level of participation and opportunity for getting to know other participants. Our community is for women of all ages who want to continue to grow and become better human beings.

This year's theme will be:

"Artificial Intelligence and Social Activism - What Does Your Future Look Like?"

Our featured keynote speaker will be Jaqueline Sussman who will be focusing on eidetic imagery and our "photographic memory." Our featured luncheon keynote speakers will be discussing gender diversity and socially responsible investing.

This year's conference will feature sessions in the following categories:

- **Economics**

1. Seeing How We Think: Why People Plan From Different Perspectives

2. Retirement Planning
3. Global Economic Uncertainty
4. Social Security and Long Term Care

- **Innovation & Technology**

1. Artificial Intelligence
2. Underwater Robotics
3. Digital Fashion
4. Cognitive Health

- **Women's Health**

1. Aging and Stem Cell Therapy
2. Cooling Cups and Cancer
3. Stress Pathways and the Mind/Body Intervention
4. CRISPR and Microbiomes

We look forward to seeing you at the conference this year! Below you can find the location, schedule, and link to purchase tickets.
